Hi Kirk and Prashant,

I have looked at these reports for a while now and I do not find them useful or informational. I assume they are something put in place some time ago, but I'm not sure what purpose they serve and would like them to be more useful. There's no mention of the call we held or any summary, or the upcoming field work that is postponed, there's nothing about OU1 or OU3, or any update of the status of the site (photo, figure, table, ?). Are they a relict from the 90s? While I appreciate getting them and I'm not proposing they stop, I would like them to be more informative if you're going to go to the effort of producing them. Any feedback would be welcome.

Sincerely,

Robert H. Pope, GS-14
